21 December 28 January 1981

SUBJECT: Award Fee for  REFERENCE: Your memo, Same Subject, Dtd. 21 Jan 81  1. It has always been our impression that the Office of Logistics and/or Management Staff/ODP was the tickler in award fee matters. As a matter of fact this has been the case in past award fee contracts. Due to the high turnover of contracting officers in PD/OL on this particular contract, the recent award fee (ODP 81-008) was late. A Division, on its own initiative, realized the oversight and has completed both award fee evaluations. The second one will be in for your concurrence shortly.  2. The results of an award fee evaluation should come as no surprise to a company. In this instance, was well aware of its less than average performance during this period. Their next evaluation will be somewhat better (although still low by industry standards).  3. To avoid overdue award fees in the future, A Division has installed its own tickler system. Applications has no other award fee contracts.
